PowerPoint of Iowa City Tornado Rick Foss, Director of Public Works for the City of Iowa City will present a power point presentation on the April 13, 2006, an F-2 tornado that cut through the center of Iowa City. Public and private entities responded immediately in a coordinated effort to protect lives and restore infrastructure. Learn about the step by step response from the initial minutes through final cleanup including utilizing the National Incident Management System (NIMS) recently developed by the Department of Homeland Security.

Program: Development/Real Estate Trends and Issues By Scott E. Olson, AIA, CFM, SIOR

February 13 African American Museum Tour

5512 Ave SE
Cedar Rapids IA

February Meeting: Marc Blackwood will give a half hour presentation on "**Commissioning**", which is defined as having the basic purpose of commissioning as follows: "The basic purpose of building commissioning is to provide documented confirmation that building systems function in compliance with criteria set forth in the Project Documents to satisfy the owner's operational needs. Commissioning of existing systems may require the development of new functional criteria in order to address the owner's current systems performance requirements." This definition is based on the critical understanding that the owner must have some means of verifying that their functional needs are rigorously addressed during design, construction and acceptance.
